

# Internet of Things

(Registration Fees ₹ 900)

As the world is getting interested in Internet of Things and the students are also very curious about the same. So we are trying to organize an event that could avail the students a platform where they could show their skills in the field of Internet of Things.

This event will not only create a competitive environment among the students but will also make people familiar about this Technology.

## Composition of the Event-

1. The event will be a 2-hour workshop followed by a 2-hour competition and the participation will be in team.
2. In the initial 2-hours, there will be a training session on IOT and then in the next 2-hours, participants will be given a task.
3. Each team will be having min. of 3 members and max. of 5 members.
4. Registration fees for the event will be 900/- per team.
5. We will select 2 teams who will complete the given task in the shortest time.
6. Prizes worth 15000/- will be provided.
7. Free take away Electronic kit will be provided consisting of all devices to be used in the competition.

## Rules-

1. Every participant will have to carry an ID Card.
2. Every Team should carry at least 2 laptops.
3. Every team must carry USB Cables. (Must for the competition)

4. No outside Electronic Devices will be allowed in the competition excepts laptops, mobiles, adapters or any basic needs.

5. If there is any tie between the teams, we will be organising another task.

6. Team that will complete the task in the min. time will be the winner and the succeeding team will be the runner up.

7. Students will be responsible for any damage in the Electronic kit.

8. Certificates of participation will be given to all participants and free Electronic kit will be given.

9. Teams will be disqualified for any kind of misbehaviour or if they do not follow the rules mentioned above.

10. The decision of judges will be the final decision.
